- Pharmaceutical Generic Drug Development Handbook Series – in-depth two-part handbook on the overall development process of the twelve major dosage forms plus commercial processes, validation, analytical methods and SOPs.
- International Journal Series - Eight drug development journals covering the latest thinking, cutting edge generic research and state-of-the-art development know-how allowing you to stay abreast of the latest research and development available.
- Title 17 Series – A series of Ten CD ROM discs each containing 10 commercial master formula and process instructions of generic blockbuster products currently produced on the US and EU market (Total 100 Master Formula and Processes)
- Title 21 CMC – Full commercial CMC dossier of 120 key generic drug products, right up to actual commercial batch validation - Saves 6 - 8 months per product in generic development, scale-up, pivotal lot and commercial validation costs.

Explore methods and techniques and apply them with confidence – with expert industry views on the latest R&D, manufacturing processing and validation techniques.

GENERAL NOTES:

IAGIM Members may upgrade to a higher plan within 6 months of membership - All Plans shipping and insurance of selected CD Handbooks are \$99 per plan). Where Handbook or CMC exceeds the published price, the member pays the difference in value. Association Membership insurance is from \$2 - \$2.50 per month for the duration of the benefit plan. Members are required to inform the Association within 30 - 120 days of their Journal, Handbook and CMC Selection. Print and fax back (US + 1-531-431-2620) when your choice and selection has been confirmed. Mail Check to Locum International Group - (Email: info@locumUSA.com). NOTE: Journal, Handbooks or CMC benefits may not be grouped or merged without approval. Data shipping within 30 - 120 days of plan approval. Prices are reviewed biannually. Some restrictions may apply. (Updated June 2006)
